Whereas graduate students have called for a campus-wide student center that would encourage an interdisciplinary community and enhance integration and collaboration among the whole student body,

Whereas meeting, study, performance, and recreational space are very limited and divided among schools or colleges,

Whereas student services and resources are dispersed across campus and centralized access would improve student lives academically, professionally, and socially,

Whereas the Graduate and Professional Student Senate has endorsed the proposal,

Therefore be it resolved that the Graduate Student Assembly endorse the Student Center Draft Proposal.

Be it further resolved that GSA approves the final draft which will be completed over the summer for use in advocacy to Yale administrators contingent on no major revisions as determined by the summer steering committee.
